How to replace ink cartridge hp deskjet 2540

Replace ink cartridges To replace the ink cartridges 1. Check that power is on. 2. Load paper. 3. Remove the ink cartridge. a. Open the cartridge access door and wait for the print carriage to move to the center of the printer. b. Press down to release the ink cartridge, then remove it from the slot. 4. Insert one new ink cartridge. a. Remove the ink cartridge from the packaging. ENWW Replace ink cartridges 41 Page 2 b. Remove the plastic tape using the pink pull tab. c. Slide the ink cartridge into slot until it clicks into place. d. Close the cartridge access door. NOTE: The HP printer software prompts you to align the ink cartridges when you print a document after installing the new ink cartridge. 42 Chapter 6 Work with ink cartridges ENWW Page 3 Use single-cartridge mode Use the single-cartridge mode to operate the HP Deskjet 2540 series with only one ink cartridge. The single-cartridge mode is initiated when an ink cartridge is removed from the ink cartridge carriage. During single-cartridge mode, the printer can copy documents, copy photos, and print jobs from the computer. NOTE: When the HP Deskjet 2540 series operates in single-cartridge mode, a message is displayed on screen. If the message is displayed and two ink cartridges are installed in the printer, verify that the protective piece of plastic tape has been removed from each ink cartridge. When the plastic tape covers the ink cartridge contacts, the printer cannot detect that the ink cartridge is installed. Exit single-cartridge mode ● Install both the black and tri-color ink cartridges in the HP Deskjet 2540 series to exit single-cartridge mode. ENWW Use single-cartridge mode 43 Page 4 Cartridge warranty information The HP cartridge warranty is applicable when the cartridge is used in its designated HP printing device. This warranty does not cover HP ink cartridges that have been refilled, remanufactured, refurbished, misused, or tampered with. During the warranty period, the cartridge is covered as long as the HP ink is not depleted and the end of warranty date has not been reached. The end of warranty date, in YYYY/MM/DD format, may be found on the cartridge as indicated: For a copy of the HP Limited Warranty Statement, see the printed documentation that came with the printer. 44 Chapter 6 Work with ink cartridges ENWW Page 5 Tips for working with cartridges Use the following tips to work with cartridges: ● To protect the cartridges from drying out, always turn the printer off using the On button, and wait until the On button light goes out. ● Do not open or untape cartridges until you are ready to install them. Leaving tape on the cartridges reduces ink evaporation. ● Insert the cartridges into the correct slots. Match the color and icon of each cartridge to the color and icon for each slot. Make sure the cartridges snap into place. ● Align the printer for best print quality. See Improve print quality on page 58 for more information. ● When the Estimated Ink Levels screen shows one or both cartridges in a low state, consider getting replacement cartridges to avoid possible printing delays. You do not need to replace the cartridges until print quality becomes unacceptable. See Replace ink cartridges on page 41 for more information. ● If you remove a cartridge from the printer for any reason, try to replace it again as soon as possible. Outside of the printer, if unprotected, cartridges begin to dry out. ENWW Tips for working with cartridges 45 Page 6 46 Chapter 6 Work with ink cartridges ENWW Page 7 Page 8 Wi-Fi Protected Setup (WPS – requires WPS router) These instructions are for customers who have already set up and installed the printer software. For the first-time installation refer to the setup instructions that came with the printer. To connect the HP Deskjet 2540 series to a wireless network using WPS, you will need the following: ● A wireless 802.11b/g/n network that includes a WPS-enabled wireless router or access point. NOTE: The HP Deskjet 2540 series only supports connections using 2.4GHz. ● A desktop computer or laptop is with either wireless networking support, or a network interface card (NIC). The computer must be connected to the wireless network that you intend to install the HP Deskjet 2540 series on. NOTE: If you have a WPS push button, follow the Push Button method. If you are not certain your router has a push button, follow the Wireless Settings Menu method. Push Button Configuration (PBC) method 1. Press and hold the Wireless button on the printer for more than 3 seconds to start WPS push mode. The Wireless status light starts blinking. 2. Press the WPS button on your router. NOTE: The product begins a timer for approximately two minutes while a wireless connection is established. PIN method 1. Press the Wireless button and Start Copy Black button at the same time to print the network configuration page, and then locate a WPS PIN. The WPS PIN is printed at the top of the printed information page. 2. Press and hold the Wireless button from the printer control panel for more than 3 seconds. The Wireless status light starts blinking. 3. Open the configuration utility or software for the wireless router or wireless access point, and then enter the WPS PIN. NOTE: For more information about using the configuration utility, see the documentation provided with the router or wireless access point. Wait for about 2 minutes. If the printer connects successfully, the wireless light stops blinking but remains lit. 48 Chapter 7 Connectivity ENWW Page 9 Traditional wireless connection (requires router) To connect the HP Deskjet 2540 series to an integrated wireless WLAN 802.11 network, you will need the following: ● A wireless 802.11b/g/n network that includes a wireless router or access point. NOTE: The HP Deskjet 2540 series only supports connections using 2.4GHz. ● A desktop computer or laptop with either wireless networking support, or a network interface card (NIC). The computer must be connected to the wireless network that you intend to install the HP Deskjet 2540 series on. ● Network name (SSID). ● WEP key or WPA Passphrase (if needed). To connect the printer 1. Insert the printer software CD in the computer CD-ROM drive. NOTE: Do not connect the USB cable to the printer until you are prompted to do so. 2. Follow the on-screen instructions. When you are prompted, connect the product to the computer by selecting Wireless in the Connection Options screen. Follow the on-screen prompts to enter your wireless network settings. The printer will attempt to connect to the network. If the connection fails, follow the prompts to correct the problem, and then try again. 3. When the setup is finished, you will be prompted to disconnect the USB cable and test the wireless network connection. Once the printer connects successfully to the network, you will not need USB cable when installing the printer on the subsequent computers. Instead, the printer name will appear in the network list and you can select it directly. Connect a new printer If you have not connected the printer to your computer, or you want to connect another new printer of the same model to your computer, you can use the Connect a new printer function to set up the connection. NOTE: Use this method if you have already installed the printer software. 1. Depending on your operating system, do one of the following: ● Windows 8: On the Start screen, right-click an empty area on the screen, click All Apps on the app bar. ● Windows 7, Windows Vista, and Windows XP: From the computer desktop, click Start, select All Programs, click HP, click HP Deskjet 2540 series. 2. Click Printer Setup & Software. 3. Select Convert a USB connected printer to wireless. Follow the on-screen instructions. 52 Chapter 7 Connectivity ENWW Page 13 Connect wirelessly to the printer without a router HP wireless direct allows your wireless devices such as computers, smart phones, tablet, and other wireless, to connect to your printer directly through the wireless network, using the process you currently use to connect your wireless device to wireless networks and hotspots. With HP wireless direct, you can print directly to the printer wirelessly, without a wireless router. To connect wirelessly to the printer without a router, press the Wireless Direct button from the printer control panel. If this is the first time you turn on HP wireless direct, a How to Connect information page will be printed out. Follow the instructions on the printed information page. NOTE: HP wireless direct with security is enabled by default when you turn it on. The HP wireless direct password can be found by printing the information page. NOTE: The information page may not be available in all languages. It only can be printed automatically when you first enable HP wireless direct. To print the information page, press and hold the Wireless Direct button for more than 3 seconds. If HP wireless direct is turned on, the Wireless Direct status light is solid on. ENWW Connect wirelessly to the printer without a router 53 Page 14 Tips for setting up and using a networked printer Use the following tips to set up and use a networked printer: ● When setting up the wireless networked printer, make sure your wireless router or access point is powered on. The printer searches for wireless routers, then lists the detected network names on the computer. ● If your computer is connected to a Virtual Private Network (VPN), you need to disconnect from the VPN before you can access any other device on your network, including the printer. ● Learn how to find your network security settings. Click here to go online for more information. ● Learn about other troubleshooting tips. Click here to go online for more information. ● Learn how to change from a USB to wireless connection. Click here to go online for more information. ● Learn how to work with your firewall and antivirus programs during printer setup. Click here to go online for more information. 54 Chapter 7 Connectivity ENWW Page 15 Advanced printer management tools (for networked printers) When the printer is connected to a network, you can use the EWS to view status information, change settings, and manage the printer from your computer. NOTE: To view or change some settings, you might need a password. You can open and use the EWS without being connected to the Internet. However, some features are not available. ● To open the embedded web server ● About cookies To open the embedded web server You can access the EWS through either the network, the printer software, or HP wireless direct. Open the embedded web server through network NOTE: The printer must be on a network and must have an IP address. The IP address for the printer can be found by printing a network configuration page. ● In a supported Web browser on your computer, type the IP address or hostname that has been assigned to the printer. For example, if the IP address is 192.168.0.12, type the following address into a Web browser: . Open the embedded web server from printer software 1. Depending on your operating system, do one of the following to open the printer software: ● Windows 8: On the Start screen, right-click an empty area on the screen, click All Apps on the app bar, and then click the icon with the printer's name. ● Windows 7, Windows Vista, and Windows XP: From the computer desktop, click Start, select All Programs, click HP, click HP Deskjet 2540 series, and then click HP Deskjet 2540 series. 2. Click Print & Scan, and then click Printer Home Page (EWS). Open the embedded web server through HP wireless direct 1. From the printer control panel, press the Wireless Direct button to turn on HP wireless direct. For more information, see Connect wirelessly to the printer without a router on page 53. 2. From your wireless computer, turn wireless on, search for and connect to the HP wireless direct name, for example: HP-Print-*–Deskjet 2540 series. If you have HP wireless direct security on, enter the HP wireless direct password when prompted. 3. In a supported Web browser on your computer, type the following address: . About cookies The embedded Web server (EWS) places very small text files (cookies) on your hard drive when you are browsing. These files let the EWS recognize your computer the next time you visit. For example, if you have configured the EWS language, a cookie helps remember which language you have ENWW Advanced printer management tools (for networked printers) 55 Page 16 selected so that the next time you access the EWS, the pages are displayed in that language. Though some cookies are cleared at the end of each session (such as the cookie that stores the selected language), others (such as the cookie that stores customer-specific preferences) are stored on the computer until you clear them manually. You can configure your browser to accept all cookies, or you can configure it to alert you every time a cookie is offered, which allows you to decide which cookies to accept or refuse. You can also use your browser to remove unwanted cookies. NOTE: Depending on your printer, if you disable cookies, you also disable one or more of the following features: ● Starting where you left the application (especially useful when using setup wizards) ● Remembering the EWS browser language setting ● Personalizing the EWS Home page For information about how to change your privacy and cookie settings and how to view or delete cookies, see the documentation available with your Web browser. 56 Chapter 7 Connectivity ENWW Page 17 Page 18 Improve print quality NOTE: To protect the cartridges from drying out, always turn the printer off using the On button, and wait until the On button light goes out. To improve print quality 1. Make sure you are using original HP ink cartridges. 2. Check the printer software to make sure you have selected the appropriate paper type and print quality from the Media drop-down list. In the printer software, click Print & Scan and then click Set Preferences to access the print properties. 3. Check the estimated ink levels to determine if the ink cartridges are low on ink. For more information, see Check estimated ink levels on page 38. 4. If the ink cartridges are low on ink consider replacing them. 4. Align the ink cartridges. To align the ink cartridges a. Load letter or A4 unused plain white paper into the input tray. b. Depending on your operating system, do one of the following to open the printer software: ● Windows 8: On the Start screen, right-click an empty area on the screen, click All Apps on the app bar. ● Windows 7, Windows Vista, and Windows XP: From the computer desktop, click Start, select All Programs, click HP, click HP Deskjet 2540 series, and then click HP Deskjet 2540 series. c. In the printer software, click Print & Scan and then click Maintain Your Printer to access the printer toolbox. The printer toolbox appears. d. Click Align Ink Cartridges on the Device Services tab. The printer prints an alignment sheet. 58 Chapter 8 Solve a problem ENWW Page 19 e. Load the cartridge alignment sheet print side down on the right front corner of the scanner glass. f. Press the Start Copy Black button. The printer aligns the ink cartridges. Recycle or discard the cartridge alignment sheet. 5. Print a diagnostics page if the ink cartridges are not low on ink. To print a diagnostics page a. Load letter or A4 unused plain white paper into the input tray. b. Depending on your operating system, do one of the following to open the printer software: ● Windows 8: On the Start screen, right-click an empty area on the screen, click All Apps on the app bar, and then click the icon with the printer's name. ● Windows 7, Windows Vista, and Windows XP: From the computer desktop, click Start, select All Programs, click HP, click HP Deskjet 2540 series, and then click HP Deskjet 2540 series. c. In the printer software, click Print & Scan and then click Maintain Your Printer to access the printer toolbox. d. Click Print Diagnostic Information on the Device Reports tab to print a diagnostics page. ENWW Improve print quality 59 Page 20 e. Review the blue, magenta, yellow, and black boxes on the diagnostics page. 6. Clean the ink cartridges automatically, if the diagnostic page shows streaks or missing portions of the color and black boxes. To clean the ink cartridges automatically a. Load letter or A4 unused plain white paper into the input tray. b. Depending on your operating system, do one of the following to open the printer software: ● Windows 8: On the Start screen, right-click an empty area on the screen, click All Apps on the app bar, and then click the icon with the printer's name. ● Windows 7, Windows Vista, and Windows XP: From the computer desktop, click Start, select All Programs, click HP, click HP Deskjet 2540 series, and then click HP Deskjet 2540 series. c. In the printer software, click Print & Scan and then click Maintain Your Printer to access the Printer Toolbox. d. Click Clean Ink Cartridges on the Device Services tab. Follow the on-screen instructions. 60 Chapter 8 Solve a problem ENWW Page 21 If the above solutions do not resolve the problem, click here for more online troubleshooting . ENWW Improve print quality 61 Page 22 Clear paper jam Use the following steps to clear a paper jam. Clear a paper jam from the output tray 1. Press the Cancel button to try to clear the jam automatically. If this does not work, the paper jam will need to be cleared manually. 2. Pull the paper gently out of the output tray. 3. Press the Start Copy Black or Start Copy Color button on the control panel to continue the current job. Clear a paper jam from the cartridge access area 1. Press the Cancel button to try to clear the jam automatically. If this does not work, the paper jam will need to be cleared manually. 62 Chapter 8 Solve a problem ENWW Page 23 2. Open the cartridge access door and slide the print carriage to the right to access the paper jam. 3. Press the Start Copy Black or Start Copy Color button on the control panel to continue the current job. Clear a paper jam inside of the printer 1. Press the Cancel button to try to clear the jam automatically. If this does not work, the paper jam will need to be cleared manually. 2. Open the cleanout door located on the bottom of the printer. Press tabs on both sides of the cleanout door. 3. Remove the jammed paper. ENWW Clear paper jam 63 Page 24 4. Close the cleanout door. Gently push the door towards the printer until both latches snap into place. 5. Press the Start Copy Black or Start Copy Color button on the control panel to continue the current job. If the above solutions do not resolve the problem, click here for more online troubleshooting . Prevent paper jams ● Do not overfill the input tray. ● Remove printed papers from the output tray frequently. ● Ensure that paper loaded in the input tray lays flat and the edges are not bent or torn. ● Do not combine different paper types and paper sizes in the input tray; the entire stack of paper in the input tray must be the same size and type. ● Adjust the paper-width guide in the input tray to fit snugly against all paper. Make sure the paper-width guide does not bend the paper in the input tray. ● Do not force paper too far forward in the input tray. ● Do not add paper while the printer is printing. If the printer is about to run out of paper, wait until the out of paper message appears before adding paper. If the above solutions do not resolve the problem, click here for more online troubleshooting . 64 Chapter 8 Solve a problem ENWW Page 25 Unable to print If you are having trouble printing, you can download the HP Print and Scan Doctor, which can troubleshoot this issue for you automatically. To get the tool, click the appropriate link: NOTE: The HP Print and Scan Doctor may not be available in all languages. Take me to the HP Print and Scan Doctor download page. Resolve print issues Make sure that the printer is turned on and that there is paper in the input tray. If you are still unable to print, try the following in order: 1. Check for error messages from the printer software and resolve them by following the on-screen instructions. 2. If your computer is connected to the printer with a USB cable, disconnect and reconnect the USB cable. If your computer is connected to the printer with a wireless connection, confirm that the connection is working. 3. Verify that the printer is not paused or offline. To verify that the printer is not paused or offline a. Depending on your operating system, do one of the following: ● Windows 8: Point to or tap the upper-right corner of the screen to open the Charms bar, click the Settings icon, click or tap Control Panel, and then click or tap View devices and printers. ● Windows 7: From the Windows Start menu, click Devices and Printers. ● Windows Vista: From the Windows Start menu, click Control Panel, and then click Printers. ● Windows XP: From the Windows Start menu, click Control Panel, and then click Printers and Faxes. b. Either double-click the icon for your printer or right-click the icon for your printer and select See what's printing to open the print queue. c. On the Printer menu, make sure there are no check marks next to Pause Printing or Use Printer Offline. d. If you made any changes, try to print again. 4. Verify that the printer is set as the default printer. To verify that the printer is set as the default printer a. Depending on your operating system, do one of the following: ● Windows 8: Point to or tap the upper-right corner of the screen to open the Charms bar, click the Settings icon, click or tap Control Panel, and then click or tap View devices and printers. ● Windows 7: From the Windows Start menu, click Devices and Printers. ENWW Unable to print 65 Page 26 ● Windows Vista: From the Windows Start menu, click Control Panel, and then click Printers. ● Windows XP: From the Windows Start menu, click Control Panel, and then click Printers and Faxes. b. Make sure the correct printer is set as the default printer. The default printer has a check mark in a black or green circle next to it. c. If the wrong printer is set as the default printer, right-click the correct printer and select Set as Default Printer. d. Try using your printer again. 5. Restart the print spooler. To restart the print spooler a. Depending on your operating system, do one of the following: Windows 8 i. Point to or tap the upper-right corner of the screen to open the Charms bar, and then click the Settings icon. ii. Click or tap Control Panel, and then click or tap System and Security. iii. Click or tap Administrative Tools, and then double-click or double-tap Services. iv. Right-click or touch and hold Print Spooler, and then click Properties. v. On the General tab, next to Startup type, make sure that Automatic is selected. vi. If the service is not already running, under Service status, click or tap Start, and then click or tap OK. Windows 7 i. From the Windows Start menu, click Control Panel, System and Security, and then Administrative Tools. ii. Double-click Services. iii. Right-click the Print Spooler, and then click Properties. iv. On the General tab, next to Startup type, make sure that Automatic is selected. v. If the service is not already running, under Service status, click Start, and then click OK. Windows Vista i. From the Windows Start menu, click Control Panel, System and Maintenance, Administrative Tools. ii. Double-click Services. iii. Right-click the Print Spooler service, and then click
